

① IDEAS

a) pie chart

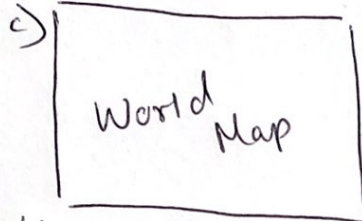

tourist attractions
by popularity

b) tree map

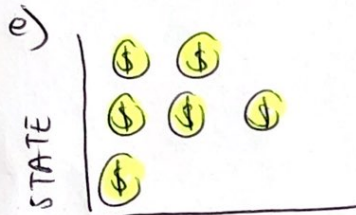

tourist attraction
by popularity

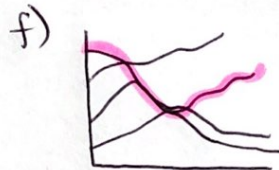

choropleth - visitors by
Nationality

choropleth -
visitors by state

ISOTYPE - revenue
by city/state from
tourism

Number of
travellers per
month

2024

② FILTER

→ By year for arrivals
↳ interactive graph

→ By state/country/city
↳ for revenue/expenditure/
reason of travel

③ CATEGORIZE

QUANTITATIVE

- revenue
- expenditure
- number of arrivals

QUALITATIVE

- STATE
- COUNTRY
- CITIES
- NATIONALITY
- reason to travel
- tourist attraction

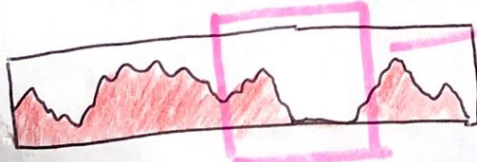

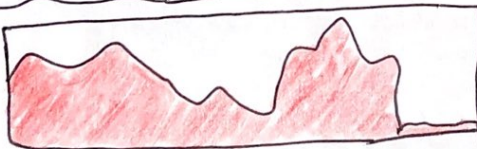

④ COMBINE & REFLECT

1a & 1b

Donut Chart
Reason of travel

If & interactive area chart

AUTHOR: ANUSHA YADAV
SHEET: 1
TITLE: AUSTRALIAN TOURISM

⑤ QUESTIONS

- Line chart is unclear due to overlap. Perhaps stacked area chart with interactive filter is better.
- What if a traveller travels for many reasons - how will this data be handled?
- What icon is effective for isotype?

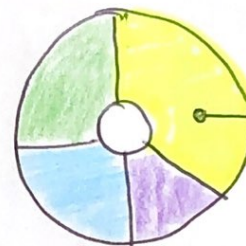

LAYOUT

OPERATIONS

Filter by state

☒	ACT
☒	NSW
☒	VIC
☐	WA
☐	NT

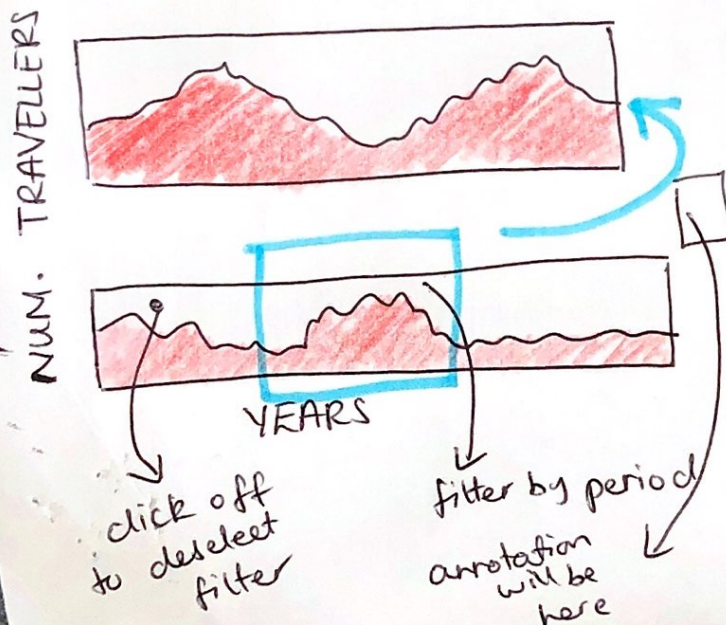

Tooltip

Purpose:
Num
Travellers

FOCUS

MONTH OF ARRIVAL OF
TRAVELLERS BY YEAR

AUTHOR: ANUSHA YADAV
SHEET: 2
TITLE: AUSTRALIAN
TOURISM

DISCUSSION

Advantage

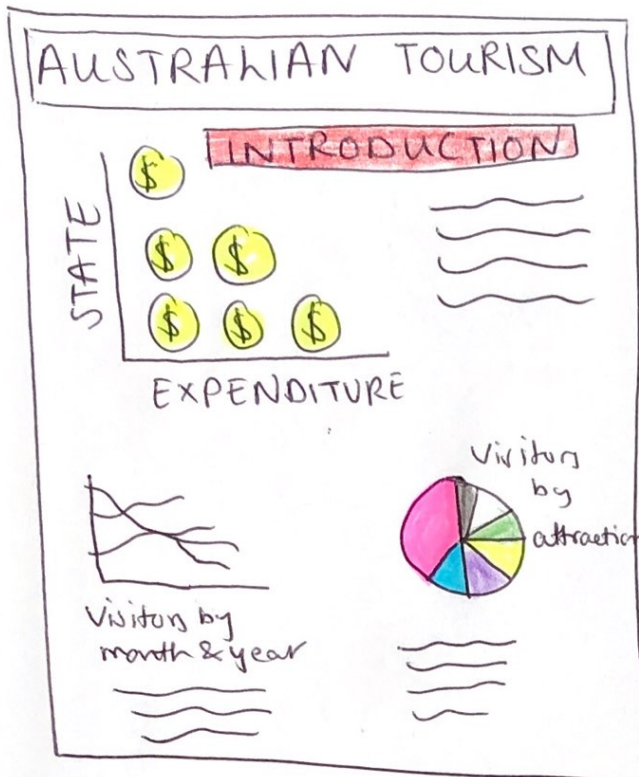

- BOTH quantitative and qualitative data have been depicted.

- Various visualisation

Disadvantage

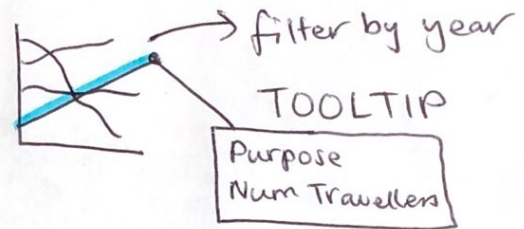

- needs more whitespace to avoid overcrowding
- avoid having 2 charts side by side, give more space

LAYOUT

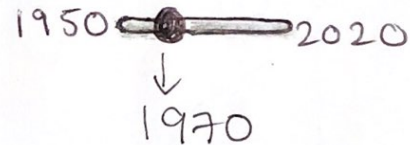

AUTHOR: ANUSHA YADAV
SHEET: 3
TITLE: AUSTRALIAN
TOURISM

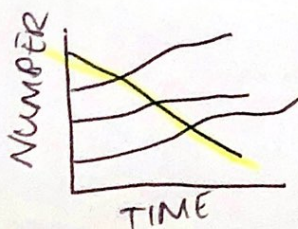

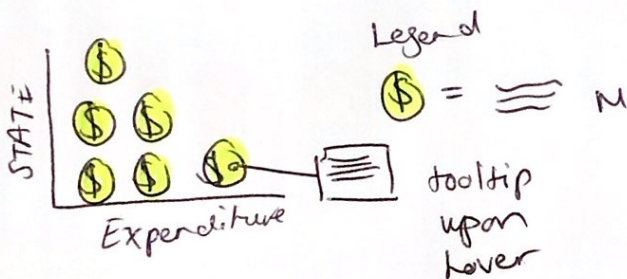

OPERATION

SCROLL FILTER

FOCUS

indicates number of travellers per month over several years

Could also use an area map with year filter

DISCUSSION

Advantage

- many interactive elements
- good use of sight lines
- good use of white space

Disadvantage

- line graph is not as clear
- various fonts required

LAYOUT

AUTHOR: ANUSHA YADAV
SHEET: 4

TITLE: AUSTRALIAN
TOURISM

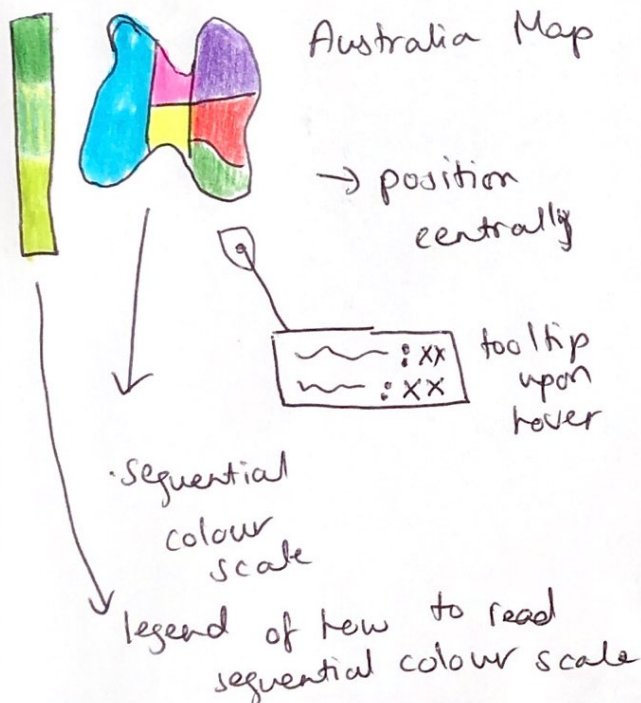

OPERATION

search ☒ drop down

↳ drop down search & filter for tourist attractions bar chart

FOCUS

DISCUSSION

Advantage:

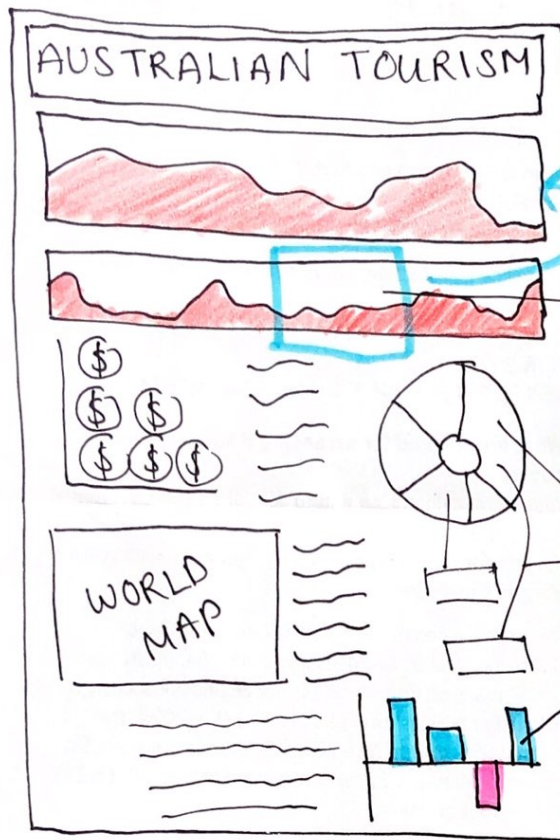

- Suitcase isotype has a clearer connection to travel
- Australia Map is clearer than world map

Disadvantage:

- No colour hue is confusing for map → use luminescence instead
- No sight lines

LAYOUT

Based off
sheet 2

TITLE: AUSTRALIAN
TOURISM

AUTHOR: ANUSHA YADAV

SHEET: 5

OPERATION

scrollable: highlight a particular time period

tooltips upon hover

click off to release the filter

annotations on data

FOCUS

No main focal point is present, rather the visualisations are grouped into themes.

This format allows for story telling and a clear narrative to the visualisation.

① tourism data pertaining to the world.

② tourism data on economy

③ reason for travel

④ tourism data on Australian states

DETAILS

→ Dependencies: Visual studio code to code the visualisations & headings. Data provided by ABS.

→ Approximate time and effort:

6 days

→ 2 days for graphs

→ 2 days for formatting

→ 2 days for interaction, editing & text.
